

TA'NARA N. TAYLOR

Systems Administrator | Security-Focused | TS/SCI with CI Poly
240.383.8565 | tanara.taylor@yahoo.com | [linkedin.com/in/taylortanara](https://www.linkedin.com/in/taylortanara) | github.com/taylortn

Systems Administrator with experience supporting secure Linux and AWS-hosted environments. Skilled in patching, vulnerability remediation, STIG compliance, and troubleshooting in high-security environments.

PROFESSIONAL EXPERIENCE

Accenture Federal Services | Office of Naval Intelligence | NMIC

SYSTEMS ADMINISTRATOR | TECH ARCHITECTURE SPECIALIST

Dec 2025 - Present

- Maintained secure AWS-hosted and Red Hat-based systems in mission-critical environments
- Performed system patching, troubleshooting, and performance support to maintain availability and compliance
- Reviewed ACAS findings, supported remediation efforts, and helped validate vulnerability fixes across Linux-based systems
- Conducted SCAP scans and assisted with DISA STIG hardening to support RMF compliance objectives

SYSTEMS ADMINISTRATOR | CUSTOM SOFTWARE ENGINEERING SPECIALIST

Sept. 2024 – Dec 2025

- Performed patching, monitoring, and compliance activities using Red Hat Satellite and Ansible Automation Platform in production and air-gapped environments
- Validated Nessus plugin updates and coordinated security approvals within classified environments
- Troubleshoot SSH and AWS Systems Manager (SSM) connectivity issues to restore secure system access

SYSTEMS ADMINISTRATOR | INFRA TRANSFORMATION SPECIALIST

Jan 2024 – Sept 2024

- Provisioned and maintained AWS instances to support operational and customer-facing environments
- Performed bi-weekly patching, OS updates, and STIG hardening across managed systems
- Managed AMI backups and EBS snapshots to support system recovery and rollback capabilities
- Deployed and maintained Nessus agents and Trellix ePO agents for vulnerability scanning and endpoint protection
- Applied AWS security features to strengthen system protection and compliance

DATABASE SYSTEM ADMINISTRATOR

Sept 2023 – Dec 2023

- Supported database maintenance, configuration, and operational support across enterprise systems
- Assisted with backup and recovery processes and performance monitoring
- Supported STIG-compliant environments for authorization readiness

Tunuva Technologies, Inc. | Parsons Corporation | National Reconnaissance Office | Aerospace Data Facility- East

PROGRAM INFORMATION SYSTEM SECURITY OFFICER LEVEL III

Nov 2022 – Aug 2023

Fort Belvoir, VA

- Supported security operations through vulnerability analysis, log review, remediation coordination, and incident response support
- Conducted SCAP scans and vulnerability assessments using ACAS
- Maintained RMF artifacts including SSPs and POA&Ms
- Coordinated vulnerability remediation efforts across system stakeholders
- Performed weekly CVE reviews and patch validation to maintain compliance

Apex Systems | Leidos | NGA

SYSTEMS ADMINISTRATOR

May 2022 – Oct 2022

- Performed system installations, upgrades, troubleshooting, and maintenance for supported hardware and software environments
- Resolved service tickets and user issues while meeting operational response expectations
- Supported end users by providing technical assistance and guidance on system access and usage
- Conducted regular audits and checks to support security and policy compliance

LICENSES & CERTIFICATIONS

- | | |
|------------------------------|---------------------------------------|
| • Security+ CE (Active) | • AWS Solutions Architect – Associate |
| • AWS AI Practitioner – 2026 | • AWS Cloud Practitioner – 2024 |
| • Red Hat CSA (In Progress) | • Risk Management Framework – 2022 |

SYSTEMS & PLATFORMS

- | | |
|-------------------------------|-----------------------------------|
| • Windows Server | • Red Hat Enterprise Linux (RHEL) |
| • AWS (EC2, SSM, EBS,AMI,ALB) | |

SECURITY & COMPLIANCE

- STIG Hardening
- SCAP Scanning
- Vulnerability Remediation
- ACAS (Assured Compliance Assessment Solution)
- RMF (Risk Management Framework)
- Patch Management

TOOLS & TECHNOLOGIES

- ServiceNow
- Splunk
- Trellix ePO (McAfee)
- Jira & Confluence
- Tenable Security Center (Nessus)

CORE STRENGTHS

- System Patching
- Troubleshooting
- SSH / Remote Access Troubleshooting
- Vulnerability Remediation
- Incident Response Support
- Backup & Recovery (AMI, EBS, Snapshots)

EDUCATION

December 2021

BACHELOR OF SCIENCE, INFORMATION TECHNOLOGY (CYBER SECURITY)

Strayer University

August 2012

ASSOCIATES OF ARTS, FOUNDATIONS OF BUSINESS

University of Phoenix
